

MODEL 206

LED DOUBLE-SIDED AMBER FLASHING WARNING LAMP

Finally! LED Double-Sided Amber Flashing Warning Lamp for agricultural applications.

This Model 206 double-sided LED amber flashing warning lamp is designed for all agricultural applications including towable implements. Save money and down time with no more bulb replacements – LEDs last the life of the vehicle. Model 206 is available in a multi-voltage configuration (either 12-24 volts or 36-48 volts) fitting a number of vehicles used in rugged environments. An optional heavy-duty guard (Model 206G below) protects the lamp from overhanging crops or foliage. This lamp is hard to beat for price and performance!

VEHICLE APPLICATIONS

- Agriculture
- Construction
- Material Handling

FEATURES

- Long-life LEDs
- Low current draw
- Sealed against the elements
- Optional heavy-duty guard available
