

MODEL 223

LED STOP, TAIL & TURN LAMP

High performance LED Stop, Tail & Turn Lamp meets SAE and ECE standards.

The Model 223 is a low profile stop, tail and turn signal lamp with an integrated Deutsch connector. Sealed from the elements, it meets both ECE and SAE regulations.

LEDs deliver longer life and brighter output than incandescent bulbs, and they are resistant to shock and vibration so this lamp is ideal for construction, agriculture and other rugged applications.

VEHICLE APPLICATIONS

- Agriculture
- Construction
- Mining
- Specialty Truck

FEATURES

- Acrylic Lens
- Integrated Deutsch DT04 Connector
- Two (2) M6 Bolt Mount

MODEL NUMBER

Model 223

DESCRIPTION

LED Stop, Tail & Turn Lamp, SAE & ECE

PRODUCT SPECIFICATIONS

Light Source

Light Emitting Diode (LED)

Input Voltage

8V – 28V DC

Current Draw – 12V

0.3 Amps - Stop

0.1 Amps - Tail

2.25 Amps - Turn

Standards

SAE J575 – Environment Test Methods

SAE J594 – Reflex

SAE J585 – Tail

SAE J586 – Stop

SAE J588 – Turn

ECE Reg. 7 – Stop & Tail

ECE Reg. 6 – Turn

ECE Reg. 3 – Reflex
