

MODEL 224

LED BACK UP LAMP

Sealed, low-profile Model 224 complies with both ECE and SAE standards.

The Model 224 LED Back Up Lamp includes an integral connector and complies with SAE and ECE standards when mounted horizontally (as pictured). It is also sealed to IP67 when mounting bolts are tightened in application position to 25 in-lbs and mating connectors are installed. The mating connector is Deutsch DT06-4S, wedge lock is Deutsch W43, and terminal is Deutsch 1062-14-0122. LEDs last the life of the vehicle and are perfect for rough terrain applications such as agriculture, construction, heavy-duty trucks, and specialty vehicles. This lamp completes the Model 224 series—Stop & Tail and Turn Signal.

VEHICLE APPLICATIONS

- Agriculture
- Construction
- Heavy Duty Trucks
- Specialty Vehicles

FEATURES

- Low profile
- Complies with SAE and ECE standards
- Long-life LEDs use less power
