

# MODEL 236

## LED STOP, TAIL & TURN SIGNAL

*ECE-Approved LED Stop-Tail-Turn Signal Lamp is a Quick Retrofit for Common Incandescent Lamp*

Retrofit a common incandescent lamp with this ECE-approved LED Stop-Tail-Turn Signal lamp. Solid-state LEDs will last a lifetime, so bulb replacements become a thing of the past. This attractive, low-profile lamp is available with an optional license plate illuminator. The multi-voltage Model 236 eliminates extra SKUs, and meets European standards for stop, tail, and turn signals. Ideal for agriculture and construction vehicles, this lamp carries a 4-year limited warranty.

### VEHICLE APPLICATIONS

- Agriculture
- Construction

### FEATURES

- Meets ECE standards
- LEDs last a lifetime
- Easy retrofit for incandescent lamp
- Sealed to IP67

#### MODEL NUMBER

Model 236-12/24V w/LPI
