

# MODEL 539

LED STROBE LAMP  
MODEL 538 - PIPE MOUNT VERSION

*Compact, multi-voltage LED strobe lamp for industrial vehicles.*

The Model 539 is a multi-voltage (12-80V) LED strobe lamp that features a durable nylon housing and a scratch-resistant acrylic lens. The unit is sealed against water, dust and corrosion. LED technology provides extremely long life and low power consumption as well as high resistance to shock, vibration and the elements. The Model 539 eliminates costly warranty calls, maintenance and downtime due to bulb replacement. *It replaces Model 536 that utilized a flashtube for its light source.*

**VEHICLE APPLICATIONS**

- Lift Trucks
- Industrial Vehicles
- Utility Vehicles

**FEATURES**

- Multi-voltage
- Scratch-resistant acrylic lens
- Available in amber, red, clear or blue

MODEL NUMBER	DESCRIPTION
Model 539	12/48V Flashing Light – Flange Mount
Model 538	12/48V Flashing Light – Pipe Mount
PRODUCT SPECIFICATIONS	
Light Source	LEDs (Light Emitting Diodes)
Input Voltage	12-80V DC Nominal
Max Operating Current	0.5 Amps at 12V 0.2 Amps at 48V
Flash Rate	60 (± 10) FPM (flashes per minute)
Standards	UL Recognized SAE J845 – Class III Warning Device
Dimensions in inches (mm in parentheses) / Dimensions are for reference only.
